Before starting the installation, please confirm your iPhone device is compatible: [Identify your iPhone model - Apple Support](#)

After that, you can follow these steps to install your digital card on your iPhone:

1. Open the email you received **on your iPhone** (the email has to be accessed directly from your iPhone or it won't work).
2. Swipe down until you see the "Download" button.
3. Tap the "Download" button. This will take you to a new page.
4. Swipe down on that new page until you see a button that says "Add to Apple Wallet" (see picture below).

5. Tap on the "Add to Apple Wallet" button.
6. Your digital card will appear. Please tap on the button that says "Add", which is located on the upper right side of the screen.

That's it! Now your digital card is installed on your iPhone.

To find it, you just need to search & open an app called "Wallet". You can search for it on your home screen, or by using the search function:
